

# Resource Efficiency Voucher

Every year, your business could save at least £200 per employee, cut energy bills by 20% and water bills by 50%. To help you make these savings, your business can now get expert advice, support and funding with a CO2Sense **Resource Efficiency Voucher**.

# Resource Efficiency Voucher

## Helping your business to prosper

Your business could save money, resources and carbon by changing how you use energy, water and waste. The Resource Efficiency Voucher can help you make these savings.

### If you are an SME in Yorkshire and Humber, you could get:

- **One day free** advice from an expert environmental consultant
- **Up to £8,000 grant** funding for equipment that will reduce energy, water and waste
- Or up to **£3,000 for ten days consultancy** to help you make changes to how you use your energy, water and waste.

Each business taking part can get up to £8,000 if they contribute 50% of the cost of making changes to help save money and resources.

**Businesses in Yorkshire and Humber could save up £553 million by making low or no cost changes to how they use their resources. To make sure your business takes advantage of these savings, contact us today on:**
